

CAN Canadian Stock Balanced 100/100 (PS2)

March 31, 2026

This segregated fund invests primarily in Canadian fixed-income securities and stocks with exposure to foreign stocks currently through the Mackenzie Ivy Canadian Balanced Fund.

Is this fund right for you?

- A person who is investing for the medium to longer term and seeking exposure to bonds and Canadian and foreign stocks and is comfortable with low to moderate risk.
- Since the fund invests in stocks and bonds its value is affected by changes in interest rates and by stock prices, which can rise and fall in a short period of time.

Q4 2025 Fund Commentary

Commentary and opinions are provided by Mackenzie Investments.

Market commentary

North American economies showed mixed signals in the fourth quarter. Canada remained pressured by U.S. tariffs, and labour-market softness became more visible as 2025 ended. In the U.S., activity stayed resilient despite the record-long government shutdown. Consumer demand and AI-related spending continued to support growth, although hiring slowed.

Monetary policy turned more supportive in 2025 and continued in the fourth quarter. The Bank of Canada held its policy rate at 2.25% in December following a 25-basis-point rate (“bps”) cut in October. The U.S. Federal Reserve Board delivered two more 25 bps interest rate cuts over the fourth quarter, bringing the federal funds target range to 3.50%–3.75%. Canada’s unemployment rate rose to 6.8% in December, while the U.S. rate was 4.4%.

Equity markets in both countries rose. The S&P/TSX Composite gained, with materials sector strength offsetting a softer energy sector. The S&P 500 Index also advanced as earnings held up. Market leadership began to widen, with more defensive companies improving while information technology and communication services remained influential. Lower oil prices weighed on energy shares.

Performance

In equities, stock selection in the communication services and consumer discretionary sectors contributed to the Fund’s performance. Overweight allocations to Aritzia Inc. and Amazon.com Inc. contributed to performance as these companies performed well.

Stock selection in the information technology sector detracted from the Fund’s performance. An overweight allocation to Microsoft Corp. detracted from performance as the company underperformed.

In fixed income, corporate bonds contributed to the Fund’s performance, while government bonds detracted from performance.

Portfolio activity

Fund holdings in Waste Connections Inc. and Constellation Software Inc. were increased.

The sub-advisor believes the stock of Waste Connections was unusually weak given modest challenges and flow of funds out of defensive industrials toward artificial intelligence (AI)-related businesses, yet the business continues to execute well. The sub-advisor increased the holding in Waste Connections meaningfully, viewing the current environment as an attractive opportunity to build exposure to a high-quality, defensive compounder at a favourable valuation.

Constellation Software is a consolidator of niche, mission-critical software businesses. The company’s stock has been one of the best compounders in Canadian history, in the sub-advisor’s view. In 2024, concerns that AI would lower barriers to entry for software development caused broad-based weakness in the software sub-sector. The sub-advisor believes the company has a more nuanced view that separates broad-brush narrative from on-the-ground reality. In the sub-advisor’s view,

CAN Canadian Stock Balanced 100/100 (PS2)

March 31, 2026

Constellation Software operates in many small markets that don't tend to attract many new entrants. The sub-advisor also believes the cost to the customer is low and the risk of switching is high. According to the sub-advisor, AI risk looks different than headlines suggest and opportunistically added to the Fund's holding in Constellation Software as a result.

FundGrade A+® is used with permission from Fundata Canada Inc., all rights reserved. The annual FundGrade A+® Awards are presented by Fundata Canada Inc. to recognize the "best of the best" among Canadian investment funds. The FundGrade A+® calculation is supplemental to the monthly FundGrade ratings and is calculated at the end of each calendar year. The FundGrade rating system evaluates funds based on their risk-adjusted performance, measured by Sharpe Ratio, Sortino Ratio, and Information Ratio. The score for each ratio is calculated individually, covering all time periods from 2 to 10 years. The scores are then weighted equally in calculating a monthly FundGrade. The top 10% of funds earn an A Grade; the next 20% of funds earn a B Grade; the next 40% of funds earn a C Grade; the next 20% of funds receive a D Grade; and the lowest 10% of funds receive an E Grade. To be eligible, a fund must have received a FundGrade rating every month in the previous year. The FundGrade A+® uses a GPA-style calculation, where each monthly FundGrade from "A" to "E" receives a score from 4 to 0, respectively. A fund's average score for the year determines its GPA. Any fund with a GPA of 3.5 or greater is awarded a FundGrade A+® Award. For more information, see www.FundGradeAwards.com. Although Fundata makes every effort to ensure the accuracy and reliability of the data contained herein, the accuracy is not guaranteed by Fundata.
