## Q4 2025 Fund Commentary

*Commentary and opinions are provided by Mackenzie Investments.*

### Market commentary

Canada's economy showed signs of strain in the fourth quarter as U.S. tariffs and weakening trade flows continued to pressure manufacturing and export-oriented sectors. Business confidence softened, and labour-market momentum faded, although household spending remained stable heading into year-end.

The Bank of Canada held its policy rate at 2.25% in December following its 25-basis-point rate cut in October, citing moderating inflation and persistent economic uncertainty. Canada's unemployment rate rose to 6.8% in December, as labour-force growth outpaced hiring and trade-sensitive industries showed renewed weakness.

Canadian corporate bonds performed well in the fourth quarter as spreads narrowed, reflecting firmer risk sentiment and improving investor confidence. Investment-grade corporate bonds benefited from stable fundamentals and steady demand, supported by the BoC's decision to hold its policy rate steady at its second meeting of the quarter. High-yield bonds also advanced, helped by the late-year strength in equities and persistent appetite for income as investors positioned for a more accommodative rate environment.

### Performance

Relative exposure to Enbridge Inc. (5.375%, 2077/09/27) contributed to the Fund's performance as corporate bond spreads narrowed. Enbridge remains a core Fund holding given its predictable cash flows. Despite the subordinated nature of Enbridge's debt security, the sub-advisor sees asset coverage and ample equity cushion. Overweight exposure to Intact Financial Corp. (2.954%, 2050/12/16) detracted from performance.

At a sector level, exposure to hybrid securities and limited resource capital notes contributed to the Fund's performance. Long-term bond exposure in financials detracted from performance.

### Portfolio activity

A holding in Sunoco LP (4.375%, 2029/03/26) was added to the Fund to replace a holding in Parkland Corp. Sunoco is one of the largest independent fuel distributors in the Americas and a leading operator of energy infrastructure. The investment reflects the sub-advisor's positive outlook for the credit following Sunoco's announced acquisition of Parkland in a transaction valued at approximately US\$9.1 billion. The Fund's holding in Parkland (4.375%, 2029/03/26) was sold given the acquisition.

The Fund's holding in The Toronto-Dominion Bank (3.605%, 2031/09/10) was increased, reflecting the sub-advisor's preference for high-quality investment-grade financial credit. The bank's bond aligns well with the Fund's duration (interest rate sensitivity) and has an attractive yield. A holding in The Bank of Nova Scotia (5.5%, 2025/12/29) was reduced as the bond approached maturity.

\*For Partner series and Preferred partner series an advisory and management services (AMS) fee, of between 0.50% and 1.25%, is negotiated between you and your advisor. The MER doesn't include this fee.

Canada Life is currently waiving a portion of the investment management fees on the High Interest Savings fund to target an estimated management expense ratio of 1.00%. Canada Life is not obligated to continue waiving these fees and it may cease to do so at any time without notice.

The 7-day annualized yield is based on the annualized total return of the fund over the past seven calendar days and does not represent an actual one-year return. It's important to note that 7-day annualized yield is not an indicator of future performance of the fund.

^Deferred Sales Charge (DSC) purchase option is not available for new contributions given regulatory bans that came into effect June 1, 2023. For certain policies where DSC is the only sales charge option available, new contributions may be accepted. Additional disclosure may be required.

†Soft capped - Contributions are no longer accepted to new investors., ‡Hard capped - Contributions are no longer accepted.
