Q3 2025 Fund Commentary

Market commentary

Canada's economy faced challenges in the third quarter as trade tensions with the U.S. continued. This weighed on trade activity and the manufacturing sector. Household spending demonstrated resiliency despite a slowing labour market and economic uncertainty.

The Bank of Canada (BoC) lowered its key interest rate to 2.50%, citing a weaker labour market and easing inflation. The BoC emphasized a cautious approach to balancing growth and price stability. Canada's unemployment rate was 7.1%, the highest since 2021, with youth unemployment rising sharply.

The Canadian fixed income market posted gains. Yields on 10-year Government of Canada bonds finished at 3.18%, slightly lower than 3.27% at the beginning of the quarter. Government bond prices increased, while investment-grade corporate bonds outperformed. High-yield bonds rose, driven by improving risk sentiment and appetite for income.

Performance

The Fund's overweight exposure to TransCanada Trust (4.65%, 2077/05/18) contributed to performance as it benefited from investor demand for high-quality credit. Overweight exposure to Canada Housing Trust No. 1 (1.95%, 2025/12/15) detracted from performance as it lagged its sector peers.

At the sector level, overweight exposure to corporate bonds contributed to the Fund's performance. Exposure to federal government bonds detracted from performance.

Portfolio activity

A new issue of Sienna Senior Living Inc. (4.112%, 2030/08/21) was added based on its yield and defensive qualities. The company may benefit from demographics, government support and resilient demand. Intact Financial Corp. (4.125%, 2081/05/31) was increased for its yield and issuer fundamentals.

Toyota Credit Canada Inc. (3.73%, 2029/10/02) was sold as the sub-advisor rebalanced the Fund, shifting toward positions with higher yield. Allied Properties REIT (4.312%, 2027/04/07) was reduced to take profits.

CAN Short-Term Bond 100/100 (PS1)

December 31, 2025

*For Partner series and Preferred partner series an advisory and management services (AMS) fee, of between 0.50% and 1.25%, is negotiated between you and your advisor. The MER doesn't include this fee.

Canada Life is currently waiving a portion of the investment management fees on the High Interest Savings fund to target an estimated management expense ratio of 1.00%. Canada Life is not obligated to continue waiving these fees and it may cease to do so at any time without notice.

The 7-day annualized yield is based on the annualized total return of the fund over the past seven calendar days and does not represent an actual one-year return. It's important to note that 7-day annualized yield is not an indicator of future performance of the fund.

^Deferred Sales Charge (DSC) purchase option is not available for new contributions given regulatory bans that came into effect June 1, 2023. For certain policies where DSC is the only sales charge option available, new contributions may be accepted. Additional disclosure may be required.

†Soft capped - Contributions are no longer accepted to new investors., ‡Hard capped - Contributions are no longer accepted.

Distribution of the chart, history standard and short-term reports are not permitted without including the fund profile long-term report. A description of the key features of Canada Life's individual variable insurance contract is contained in the information folder, available from your advisor. Any amount that is allocated to a segregated fund is invested at the risk of the policyowner and may increase or decrease in value. A description of the key features of Canada Life's individual variable insurance contract is contained in the information folder, available from your advisor.
