Q1 2026 Fund Commentary

Commentary and opinions are provided by Putnam Investments.

Market commentary

Global equities declined during the first quarter of 2026, with a sharp drawdown in March offsetting earlier gains. Value outperformed growth across most markets, and smaller-capitalization stocks held up better than large-cap stocks. Investors rotated away from U.S. mega-capitalization and long-duration growth names .

Performance

Stock selection within the information technology and industrials sectors contributed to performance. An overweight allocation to the energy sector also contributed to performance. Selection within Asia and Japan was positive.

Samsung Electronics Co. Ltd. contributed to performance because of memory demand strength in January and February, although the Korean market retraced in March on energy import sensitivity. The sub-advisor maintains conviction on the company's role in artificial intelligence (AI) high-bandwidth memory. BP p.l.c. contributed to performance because of the oil price surge following the conflict in Iran and the company's strategic pivot toward oil and gas production. Taiwan Semiconductor Manufacturing Co. Ltd. contributed to performance because of AI-related capital equipment strength and the company's leading-edge semiconductor criticality.

Stock selection in the health care, consumer staples and communication services sectors detracted from performance during the quarter. A lack of exposure to Australia also detracted from performance.

HDFC Bank Ltd. detracted from performance because of governance concerns following the chairman's resignation and merger integration uncertainty. The sub-advisor reduced the allocation during the quarter. ICON plc detracted from performance because of an accounting investigation involving revenue overstatement. The sub-advisor sold the entire allocation.

Portfolio activity

The sub-advisor added Tencent Holdings Ltd., Diageo plc, Daiwa Securities Group Inc., Compagnie de Saint-Gobain S.A. and adidas AG during the quarter. The sub-advisor increased AstraZeneca PLC, Mercedes-Benz Group AG and Smurfit Westrock plc.

The sub-advisor sold ASM International N.V., SAP SE, The Magnum Ice Cream Co., Fresenius Medical Care AG and Adecco Group AG during the quarter. The sub-advisor decreased Mizuho Financial Group, Japan Post Co. Ltd. and Alibaba Group Holding Ltd.

CAN EAFE Equity 100/100 (PS2)†

May 31, 2026

Outlook

The sub-advisor notes that the rotation from growth to value continued during the quarter and that geopolitical and policy uncertainty persists. The ongoing conflict in the Middle East adds a layer of uncertainty that may continue to influence sector and regional performance.

This document may contain forward-looking information which reflect our or third-party current expectations or forecasts of future events. Forward-looking information is inherently subject to, among other things, risks, uncertainties and assumptions that could cause actual results to differ materially from those expressed herein. These risks, uncertainties and assumptions include, without limitation, general economic, political and market factors, interest and foreign exchange rates, the volatility of equity and capital markets, business competition, technological change, changes in government regulations, changes in tax laws, unexpected judicial or regulatory proceedings and catastrophic events. Please consider these and other factors carefully and not place undue reliance on forward-looking information. The forward-looking information contained herein is current only as of Mar 31, 2026. There should be no expectation that such information will in all circumstances be updated, supplemented or revised whether as a result of new information, changing circumstances, future events or otherwise.

There can be no assurance that the Fund's return or volatility targets will be met, or met over any particular time horizon. Targeted returns and volatility should be evaluated over the time period indicated and not over shorter periods. Targeted returns are not actual performance and should not be relied upon as an indication of actual or future performance.

This fund is available through a segregated funds policy issued by Canada Life.

A description of the key features of Canada Life's individual variable insurance contract is contained in the information folder, available from your advisor. **Any amount that is allocated to a segregated fund is invested at the risk of the policyowner and may increase or decrease in value.**

CAN EAFE Equity 100/100 (PS2)†

May 31, 2026

*For Partner series and Preferred partner series an advisory and management services (AMS) fee, of between 0.50% and 1.25%, is negotiated between you and your advisor. The MER doesn't include this fee.

Canada Life is currently waiving a portion of the investment management fees on the High Interest Savings fund to target an estimated management expense ratio of 1.00%. Canada Life is not obligated to continue waiving these fees and it may cease to do so at any time without notice.

The 7-day annualized yield is based on the annualized total return of the fund over the past seven calendar days and does not represent an actual one-year return. It's important to note that 7-day annualized yield is not an indicator of future performance of the fund.

^Deferred Sales Charge (DSC) purchase option is not available for new contributions given regulatory bans that came into effect June 1, 2023. For certain policies where DSC is the only sales charge option available, new contributions may be accepted. Additional disclosure may be required.

†Soft capped - Contributions are no longer accepted to new investors., ‡Hard capped - Contributions are no longer accepted.

FundGrade A+® is used with permission from Fundata Canada Inc., all rights reserved. The annual FundGrade A+® Awards are presented by Fundata Canada Inc. to recognize the "best of the best" among Canadian investment funds. The FundGrade A+® calculation is supplemental to the monthly FundGrade ratings and is calculated at the end of each calendar year. The FundGrade rating system evaluates funds based on their risk-adjusted performance, measured by Sharpe Ratio, Sortino Ratio, and Information Ratio. The score for each ratio is calculated individually, covering all time periods from 2 to 10 years. The scores are then weighted equally in calculating a monthly FundGrade. The top 10% of funds earn an A Grade; the next 20% of funds earn a B Grade; the next 40% of funds earn a C Grade; the next 20% of funds receive a D Grade; and the lowest 10% of funds receive an E Grade. To be eligible, a fund must have received a FundGrade rating every month in the previous year. The FundGrade A+® uses a GPA-style calculation, where each monthly FundGrade from "A" to "E" receives a score from 4 to 0, respectively. A fund's average score for the year determines its GPA. Any fund with a GPA of 3.5 or greater is awarded a FundGrade A+® Award. For more information, see www.FundGradeAwards.com. Although Fundata makes every effort to ensure the accuracy and reliability of the data contained herein, the accuracy is not guaranteed by Fundata.
